

SUMMARY

With its purpose based in providing divinely oriented services in rapidly changing times, Path Of Divine Restoration, a “*not for profit*” Spiritually based Humanitarian Church, has a mission to assist in the development, delivery and application of universally cutting edge, Spiritually and scripturally based organic healing and wellness technologies along with water and earth purification protocols. By Utilising those most compatible to the full spectrum of our physical, metaphysical and psychobiological human requirement we assist in delivering the educational elements required for resetting and reconnecting to our divine multi-level origins.

Opening Statement

Specializing in *Facilitating Environments for Divine Well-being*, PODR will recognize, foster and develop the minds, souls and technologies of a new wave of truly conscientious leaders for our collective *future* well being. While acting as a Nexus point between our collective scientific and spiritual brain trust, and navigating rapidly changing markets and financial landscapes, our Integrative environmental technologies, complimentary wellness protocols and bio-energetic nutritional techniques are based at the forefront of today’s natural personal health and wellness industry. Health is, The New Wealth! Positioned to contribute as a vanguard Organisation for new development and deployment of Information, Technology and Quantum methodology in clearing our connection to source and accessing higher awareness of being. One foot grounded in the earth of our ancestors timeless wisdom, one foot planted deeply out into the universal realm of all life enhancing, value producing possibilities.

Through designing Integrated centres and coordinated excursions to local and foreign areas of the earth, offering fully prepared task force style operations to most effectively assist in the detection, treatment and correction of environmental imbalances whilst assisting with the growing global epidemics/pandemics we are facing. PODR’s alliances with personal and environmental “Bioremediation” detection and treatment technologies are second to none as are our water structuring, binding and purification technologies. Through our tested protocols and regular think tank seminars our team of Scientists, Inventors, Phd’s, Medical Professionals, Physicians, Practitioners, Healers and Shaman act with educated and guided compassion while paving new ways towards paradigms of real time solutions for our Global challenges.

The Need & Divine Timing

PODR, A Global Spiritual Humanitarian "Not for Profit" Church and Foundation for Healing is fully devoted to the teaching and application of prevention and control of disease, self sustainability programs such as permaculture and biodynamic farming along with alternative power and energy sourcing. We promote the creation of numerous life enhancing, spiritual business opportunities and global projects within the not for profit arena and all underfunded organisations who's work is in the betterment of Humanity. We'll inspire, open minded local leaders to step up to the challenge to initiate strategic, new paradigm partnerships toward the creation of educated, healthy, productive and self sustainable, harmonious communities.

We are facing great shifts within the years ahead, and in light of this PODR will push to reach new limits of education in personal and environmentally Holistic Health, accessing and distributing the tools for true self help, local/global sustainability and self sufficiency. By teaching a blend of *value producing business principals* and the *spiritually balanced laws of our Universe*, we can rediscover the, **law of One** and rediscover what that means to each of us! New technologies and alliances grounded in this *value producing* arena will continue to be scouted from around the planet for research and development toward the continuation and fulfilment of the PODR mission.

Initially, as needed our technologies and Spiritually grounded protocols will be fully trialled and offered for maximum delivery potential on multiple cultural and social fronts. Through sharing Futuristic technologies and ancient insights of what is truly available to us as a global community, we will move *one focused step at a time* toward implementing our mission. Through our daily practices, the art of Divine Grace will act as our road map, and by helping one person, one family, one community at a time, word of mouth will be our premium.

Founders & Council of Trustees

Australian (Brisbane) Born Stu Alexander Jemesen, the Founding Minister, and Spiritual Overseer of Path Of Divine Restoration along with fellow countryman Co-Founder/Financial Trustee, Megan Carr, have formed an eclectic and powerful team of spiritually grounded new thinking, intuitive entrepreneurs, inventors, scientists, healthcare professionals, Healers and Shaman from Australia, North and South America, Asia and around the globe. Unconditionally open, forward thinking and contributing their hearts, souls, and life's spiritual journey toward the Divine Restoration of our collective union. It is the time to remember, there is but One! We are it!

Dr. Stu Alexander Jemesen – L.DNM Founder/Spiritual Overseer.

Utilizing Natural Holistic, Body, Mind and Spiritual techniques for teaching the Healing of Self and reconnection to the blue print of our Soul origins. A Monastic Doctor Of Natural medicine/naturopath specializing In Education and Practice of "Natural Prevention and Control of Disease".

Historically Jemesen is a former professional Athlete and 4X Australian Champion in Beach Volleyball who was instrumental in bringing and promoting the sport to Australia in the late 80's. After a serious auto accident in the USA and three life altering back surgeries took him from his Olympic sporting dreams, he has learnt, practiced and been schooled first hand from *personal need*, various forms of athletic training, sports performance and personal coaching. While specialising in powerful pain and stress reducing techniques through accessing the natural healing abilities of the body, mind and spirit within, he has spent over a decade researching and uncovering the most powerful, spiritually based natural technologies that support them. This has led to the development and practice of LIGHTSEEDING® *Cellulo-Spiritual Rejuvenation*.

Embracing powerful Ancient and modern teachings in the Healing arts he has studied and practiced powerful forms of athletic performance, Neuro Muscular Re-education, Muscular Skeletal Re-Alignment, and personal health/wellness/performance coaching for prevention and control of disease and Optimum athletic pain free day to day performance. Teaching his own blend of unique Mind, body and Spiritual approach to health and wellness, Jemesen has practiced and educated himself between the USA and Australia for the past twenty years. Soon to culminate in a Doctorate in Philosophy, specializing in *Natural Health and Divinity*.

During his journey he has personally helped coach film, music and television elite, professional athletes in search of their highest athletic potential and assist chronically health challenged children and adults back towards their fully vibrant, healthy selves. Having been honoured through innovation in the field of prevention and control of disease he was nominated by his peers and ceremonially Knighted into the Ancient practicing Order of *The Sovereign Medical Order of Knights of Hope* www.SMOKH.org and is a licensed Lay Chaplain/Minister for the order in full support of the *Knights of Hope* own Humanitarian and spiritual mission.

Currently being packaged with a book release and Practitioners handbook, one of Jemesens goals is to teach and pass on his registered spiritual healing tools, known as LIGHTSEEDING® *Cellulo-Spiritual Rejuvenation*. "In these declining times of Health Freedoms and effective prevention and Control of disease, LIGHTSEEDING® is a celebration and promotion of life, and as the PODR Sacrament, it is one of my goals to share with practitioners and general public alike, the simple and powerful

healing tools inherent within LIGHTSEEDING®. The same tools are innate within each and everyone of us."

MEGAN ELAINE CARR – Co-Founder/Financial Trustee. A founding LIGHTSEEDING® Practitioner Specializing in the arena of **Autism Spectrum Disorder**. In a hands on approach, teaching the Education and providing the tools required on it's causes while implementing customized plans with parents for it's reversal.

With Autism on the ever increasing rise it is time to restore the health of our children and youth. *"If we do not get a handle on this increasing epidemic within the next two generations, we will truly face an unprecedented health crisis. The sad thing is that these conditions are fully preventable and reversible given an ounce of Education and redirection of how to view and treat it is more fully understood". We are blindly poisoning the Human race and the kids are simply the recipients of such blind ignorance".*

As the other half of the founding partnership of PODR, Megan brings her souls lifetime of insight and understanding to the table with an open hearted grace of the possibilities with a grounded reality rarely encountered.

Peter Fraser Falt. (PODR Developmental Trustee). Has served as a Director for BMW Group's DesignworksUSA for the last 8 years. During this time, his overall responsibility has been to create new business and product opportunities for global clientele through unique solutions for brand, design, and business needs by utilizing the BMW Group's vast resources. Prior to joining DesignworksUSA Peter served as Principal Vice President of GYS inc., where he directed and designed product and brand development activities for many companies including Motorola, X-Acto, & P&G.

In addition, he created a proprietary design evaluation technique for testing market acceptance and consumer perception of new offerings. Receiving a BFA from KU at Lawrence in Industrial Design with an emphasis on human factors and psychological behaviours in design, Peter was included in the graduate program for corporate sponsored development for a wide range of programs from Lear Jet interiors and luxury goods to eco-centric practices for organic farming. Peter studied Sustainability practices under Victor Papanek, and has work shown in Papanek's last piece, The Green Imperative.

Robert Chamberlain March (PODR Spiritual Trustee) is a sound healer, naturopath, author, and student in the lineage of all the prophets and avatars throughout history who have come to earth bringing the message of spiritual freedom as a prerequisite to manifesting for all beings the full expression of the golden age or kingdom of heaven here on earth as it is in heaven (Satya Loka).

He has realized that the only way to restore the divine plan of love, harmony, abundance, beauty, and oneness on earth is for each human being to pray and ask the Spirit of Guidance to illuminate and integrate our hearts and mind that we may directly experience oneness and act in Love's Service for the benefit of all sentient beings.

Andrew M.D. Troostwijk, MBA – (PODR Operational Trustee) My vision is for a world where more and more people around the globe will be experiencing personal freedom on all levels; spiritual, emotional, mental and physical (also material). From The Netherlands by origin, I have travelled the world extensively, both on business as well as with my family of 5. I love people and I am driven by an ever growing understanding of the human behaviour, its dynamics and a desire to make the world a better place, where people can experience that personal freedom . What moves us? What moves me and what keeps me from being my own best and how can I make a difference?

I have an extensive background in (international) sales and management. At the age of 34 I was the General Manager for a UK listed property company and as such responsible for driving the expansion into continental Europe. I started my own company two years later. For the past 14 years I have actively studied and worked in the field of human behaviour and business. This is my passion.

After travelling the world for a year with my family we have chosen the Coffs Harbour area of Australia as our place to live, because of the people, climate, ocean, space; just a great place for our 3 children to grow up. I have an MBA from the University of Amsterdam in The Netherlands.

Rev. Pamela Murphy – (PODR Ministerial Trustee). Currently Residing Dana Point, Southern California, Rev. Pamela first received the call to ministry in a visioning session with Rev. Michael Bernard Beckwith, founder of the Agape International Spiritual Center. Her Spiritual journey started some thirty years prior as a single mother raising two boys. Discovering The Course of Miracles and works of Deepak Chopra, Marianne Williamson and Ernest Holmes began her New Thought journey and exploring the world of metaphysics. Pamela, an actress most all of her life, supported her family by appearing on T.V. and commercials but her focus quickly became the teachings that put into words all she instinctively knew in her heart.

This was a way of life. It resonated with her, it inspired her and it guided her through many challenging moments. The path twisted and turned its way to Agape and Rev. Pamela found her spiritual home. Embracing the spirit of her own evolution by going deeper, she began taking classes and became a professional, licensed Religious Science Practitioner. *And then came the voice... " You belong in ministerial school".* In that still quiet moment she answered "Yes" and graduated in the first class of New Thought/Ancient Wisdom Ministers from Agape's University of Transformational Studies.

Rev. Pamela's charge is to be "Passion", "Live Out Loud", and "Let It Begin With Me".

Her passion is evoking awareness that health and wholeness is the perfect balance of our three fold nature; spiritual, mental and physical. Her ministry is to support that balance and inspire the creative expression of being while dancing the dance of living in the Absolute. Pam's sacred journey emerges as a Minister and one of the original founding Elders of Path of Divine Restoration.

Daniel Vladeta BSc (Hons) Neuroscience, Dip Osteo (PODR Technology Trustee) Daniel's initial interest in studying the body was inspired through an early introduction to martial arts, his years as a competitive sportsman and the practice of meditation. His passion for science was also instigated at an early age as he delved into the work of his family relative Nikola Tesla.

His studies saw him combining these passions, majoring in Physiology and Anatomy with post-graduate research in Neuroscience, and studying Osteopathy. He worked in practice with a prominent osteopath, which led to him developing his own myofascial techniques for spinal and body re-balancing, and his own practice. This work continues today as he focuses on looking for patterns and ratios within the body, and how to create lasting physical change.

Daniel also worked with numerous Medical and Surgical Companies, which culminated in a role as Regional Manager for an International Surgical Company covering Asia, UK and Northern Europe. The role involved collaborating with thought leading surgeons to create and develop new techniques, procedures and materials in the surgical field, particularly in the areas of tissue culture and regeneration, resorbable materials and the use of electromagnetic fields. Optimally he is interested in finding techniques to allow the body to heal and regenerate itself. He has sat on the boards of Medical Companies and Production companies, and his expertise is sought after in facilitating company start-ups.

Today, Daniel is running his own company producing and inventing tools and devices to balance the body. He believes we need to work through the body and open up pathways within it to harmonise with higher vibrations as part of our spiritual evolution. If the body can be balanced with gravity, this will allow free energy to flow through us to achieve a 'zero point' vibration. He believes this de-scention of energy is possible through physical transition.

With his medical and scientific experience Daniel is positioned as a bridge between modern technology and ancient spiritual healing practices. Moving forward, he is dedicated to uncovering new technologies and tools that encourage the transition and integration of our physical, mental and spiritual bodies and how we interact with our environment.

Ralph Warren Ring DD. PhD (PODR Elder Trustee & Spiritual Statesman) Knighted in The Sovereign Military Order of the Temple of Jerusalem. (Knight Templar). Ordained Minister, Doctor of Divinity, Doctor of Religious Science; Doctorate of Metaphysics; Phd. Philosophy, Theology. Lifelong Student of Marshal Arts.

Ralph Wineman Ring and Rosina Constance Davies on September 20, 1934 in Manila , Philippine Islands. He and his family remained on the Islands until 1936 at which time they relocated to Hollywood , California , USA . Ralph was quite active in the Boy Scouts of America where he learned many of the fundamentals of wilderness survival and self sustaining natural laws. During this time Ralph had his own magazine and paper route.

The family relocated to Paradise , California where he became totally interested in nature and developed extensive research in learning natural laws. Eventually he returned to Manila , Philippine Islands, and then to Hong Kong , China where he received much of his education in a multi-level boy's school called La Salle College . He returned to Santa Cruz , California , rejoining his father for a short while, and then relocated to Fernley , Nevada , continuing his education while learning the fundamentals of ranching and farming.

Ralph entered the US Army at Fort Ord , California . He served with distinction in Korea , earning the Combat Infantry Badge, Silver Star Unit Citation and the Purple Heart. After leaving the military in 1954 he started his own business "Divers Incorporated" where he helped and trained many divers in different areas of diving, such as underwater mining, photography, recovery, and repair. He then went to work as an experimental Research and Development diver for U.S Divers Corporation, Santa Ana , California where he met and became very close friends with Jacques Cousteau the founder. Together they shared an interest in fostering a greater understanding of the marine environment.

He also worked for Advanced Kinetics, Costa Mesa, California, which was a government research facility dealing with alternative technologies. He worked there as a Research Lab Technician, where he created many new alternative ideas.

Ralph worked with O.T.C. Enterprise, as Research Consultant in natural sciences, located in Apple Valley, California, under the direction of Otis T. Carr who worked with Nicola Tesla for three years . Late 1959 and early 1960 they created a circular foil spaceship with the capacity (using aether technologies) to teleport through time and space.

Ralph then went on to Seattle, Washington to continue his ongoing research in alternative energies. While in Seattle working with Undersea Gardens as Head Diver he used his knowledge in Oceanography and Marine Biology to gather specimens for the University of Seattle and the Washington Fish and Game Department.

Path of Divine Restoration

Ralph continues to actively support and interact with the Audubon Society, Greenpeace, The Wilderness Society, Earth Justice, SPCA, The Humane Society, Doris Day Animal League, Smithsonian Institution, The Nature Conservatory, Environmental Defense, Friends of The Earth, International Animal Welfare and he has been actively sponsoring and supporting the St. Labre Indian School located in Ashland, Montana.

He is also listed in the Cambridge Who's Who Register concerning alternative research and is an active consultant. He is a member of The Elders of the Roundtable, Innovations Research Group, Kona , Hawaii where he is continually active in consulting work. He continues to lecture on higher consciousness, natural laws and alternative energies throughout the United States , and has become known as a peaceful warrior in the challenges that face our world.
